Professional development program

that works!

over 60% of the participants have already started working

it's your turn!

What is Career Turn?

This is a FREE, educational project for people who are interested in changing their career path, acquiring new competences and skills and who consider starting work in international corporations. Our goal is training support and effective professional and vocational activation.

Who is the project addressed to?

The project is directed to people currently in a difficult situation on the labor market, the unemployed, threatened with losing their jobs or working below their qualifications, for example:

- Youngsters - no higher education, no professional experience,
- mature people - over 45 years old,
- people with disabilities,
- war refugees from Ukraine,
- ...but not only!

We require communicative English.

What are the benefits of the project?

- Each participant has several dozen hours of practical training, coaching and individual mentoring.
- Support from volunteers who work in a corporation.
- Participation in a prestigious project implemented in an interactive form.
- A measurable result: over 60% of the participants of previous editions have already started working.
